CHITKARA UNIVERSITY

FORMATIVE ASSESSMENT-4

PROJECT DETAILS TEMPLATE

Group Name	**Team Number 06**
Project Title	Trainy.com
Team Leader	Bhargav Sharma
Details of Work division	
High level Approach to be followed: ● Share the details in points	● Project allows the user to book train tickets in a very easy way. ● Login page is for user personalization. ● Completely organised in a single view. ● Help/Query page for assistance. ● Payment gateway supported by various payment methods.
Lower level Approach to be followed: ● Share the details in points	Through this project, we aim to provide a lucid way to check, schedule, book and cancel train tickets through a safe & secure gateway. We have made an interactive movable contact box. All of this has been made with the help of HTML,CSS and Javascript.
Advantage of the project with applicability: Highlight the unique feature(s) of the project if any	● Online viewing of user information ● Quick and easy booking system. ● Online cancellation capability. ● Personal verified accounts creation.

Details of Work division:

Student/rollno	Work / Role Allotted
Abhinav Ahlawat /2010991790	Help Page and Booking Web Page
Abhinav Garg /2010991791	Payment Web Page
Achint Sharma /2010991794	Booking Web Page
Bhargav Sharma /2010991848	Home and account Web page

	Deliverable	Expected Date of Completion
Schedule for implementing the use case: ● Share the Tentative Date of Completion of Expected Deliverables	Team Creation and project determination	2 days
	Creating all in one view of website and basic layout	7 days
	Making Website interactive using Scripting	5 days
	Organising various web pages and linking them	4 days
	Designing Part	8days
	Final touch and testing	3days
	Total Days	29 days
Future scope of the project ● Share the details in points	In times to come, this project will include online form, database, and Web portal connected to a back-end server. Few things we will add in future are- 1. Email confirmation upon reserving equipment. 2. Web portal for employees to manage reservation data. 3. Enhanced database to store equipment and employee data. 4. Online cancellation capability. 5. Allowing rescheduling of reservations. 6. Email reminders of upcoming reservations.
